

First Name : Hamza
Last Name : BOUAZIZ

Occupation : Doctoral Student
Speciality : Mechanics

Affiliation :

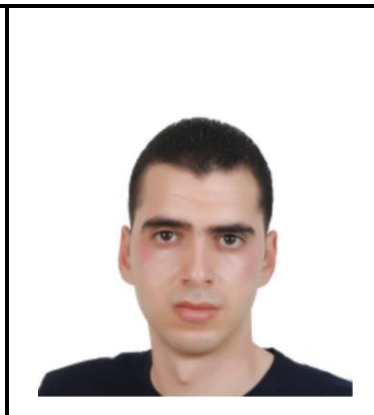

- Laboratory of Mechanics Modeling and Production (LA2MP) of the National School of Engineers of Sfax, Tunisia.
- Engineering Laboratory of Mechanical Systems and Materials (LISMMA) of the Higher Institute of Mechanical Paris, France.

Phone : +21621220937, +33758310120

Fax :

e-mail : bouaziz.hamza@live.fr, hamza.bouaziz@supmeca.fr

Postal Address : 3.5 km road Menzel Chaker 3013 Sfax, Tunisia

Professional Experience :

- Six-month internship at the Laboratory of Tribology and Dynamics System (LTDS) Lyon, Paris.
- Electromechanical Engineer since 2013.

Research Activities :

- Study of hydrodynamic shock on deformable structures.
- Vibration control of assembled structures with the help of nonlinear energy sink actively controlled.

Journal Papers :

Conference Papers :

- The NES's limits and the contribution of active control. International Conference Multiphysics Modelling and Simulation for Systems Design MMSSD ,Sousse 2014.
